Front End Technologies Week 7 Coding Assignment

Points possible: 75

URL to GitHub Repository:

https://github.com/beebegun2/Week_7.git

Instructions: In VS Code, or an IDE of your choice, write the code that accomplishes the objectives listed below. Ensure that the code compiles and runs as directed. Take screenshots of the code and of the running program (make sure to get screenshots of all required functionality) and paste them in this document where instructed below. Create a new repository on GitHub for this week's assignments and push this document, with your project code, to the repository. Add the URL for this week's repository to this document where instructed and submit this document to your instructor when complete.

Coding Steps:

1. Create a website using only HTML. The website can be anything you like (within school guidelines) as long as it meets the following criteria – website must contain:
    a. At least 3 pages
    b. Links to navigate between all pages present on each page
    c. A list
    d. 3 images
    e. 2 different size headers
    f. A table
    g. A form

23      <li>I am now attending a bootcamp for Front End Software Development</li>
24      <li> I am also working towards a happier / healthier me with working out.</li><br> I enjoy
        swimming a few times a week, walking/jogging and most recently have started weight lifting
        some in order to tone. I love going to the lake and enjoying the peace it brings either on a
        boat, kayaking with my dogs, or just sitting on the land overlooking the water. </p>
